

Shop Fabricated Process Tanks

We offer shop fabricated production and process tanks from 28 BBL to 3,000 BBLs (4.5 to 477 m³). Tanks are designed to industry standards using API 650 and 12F codes as references.

Using over 50 years of technical and hands-on experience to ensure the customers satisfaction. We will design and fabricate tanks to suit any process:

- Single wall and double wall design
- Heavy oil production & sales
- Water treatment
- Oil heating
- Facility and battery operation

Several options are available including:

- Conventional Firetube/Burner Heating Systems
- High Efficiency Low Emission (HELEx[®]) burner system
- Internal coatings, external coatings and insulation in accordance with industry standards
- Internal and external valve containment chambers
