Vessel Manufacturing

Our experienced vessel designers, engineers and fabricators have manufactured and designed some of the largest and most complex heavy wall vessels in the oil & gas industry.

We have state of the art manufacturing facilities that have capabilities and experience up to:

- **29.5' diameter**
- **300' length**
- **6.25" thick**
- **800,000 lbs.**

Source materials include, but are not limited to:

- Carbon Steel
- Stainless Steel
- Explosion bonded plate
- Select Full Alloy Metals
- Weld Overlay

Certifications

- ASME Certifications U, U2, M and S stamps.
- ABSA Certified
- National Board Certification
- CWB W47.1 and CWB W59 Structural Certifications
- Over 1000 Weld Procedures in house

For over 50 years, we have shipped some of the largest vessels around the world while meeting or exceeding some of the most stringent fabrication schedules and specifications.
